

SAISONIC offers wire and cable processing services for all contract manufacturers. Let the experts process your wire and cable requirements with our state of the art processing equipment. SAISONIC has capabilities that most contract manufacturers do not. With our equipment we can cut wire and cable to specific lengths as well as cut and strip, cut and coil, strip and tin and kit all types of wire and cable. Any wire sizes from 30Awg up to 2/0Awg, our equipment can process it all. If your applications require multi-conductor cables, we provide cut and strip of outer jackets as well as each individual inner conductor.

SAISONIC processing capabilities include, but are not limited to;

Wire Cutting & Stripping & Tin
Splicing & Sonic Welding
Wire Marking and Labeling
Braiding or Wiring Loom
Cable Jacket Cut and Strip
Feed Through Epoxy and Cable Potting
Cable Cut and Coil
Wire and Cable Prepping
Wire and Cable Kitting
Wire Soldering
Coils Cords & Plugs
Cable Overmolding
Multi-Conductor Cut & Coil
Wire Leads
Wire & cable Terminating
